## **FRENBURY DEVELOPMENTS LTD HAND OVER KEYS TO NEW PETERBOROUGH OFFICES TO AB AGRI LTD**

Frenbury Developments Ltd will hand over the keys of a three-storey 22,264sq ft office building at Peterborough Business Park, Lynch Wood, Peterborough, to international agri-business, AB Agri on Friday 29 August.

The large-scale development was successfully completed from start to finish to time and budget in just over one year, by a team of local companies including Davis Langdon LLP, David Turnock Architects, Butler & Young Ltd, Stirling Maynard & Partners, Cunningham Clark and David Shaw Planning. The main contractors were SDC Builders Ltd from Bedford who won the contract after a tender and interview process.

The development was project managed by the Peterborough office of Davis Langdon, who worked closely with SDC Builders, to ensure the smooth-running of the construction. The exciting looking building was carefully designed by Peterborough-based David Turnock Architects to be as environmentally friendly as possible, in line with AB Agri's ethos of corporate social responsibility. The entire project was built from recyclable materials incorporating several measures to make it as energy efficient as possible.

Wally French, Managing Director of Frenbury Developments Ltd, commented, "We knew that aiming to complete such a large project within such a short time-scale would be a major challenge yet from a standing-start last June, the team have managed to complete the development on time and budget – a great tribute to the talents of all concerned. I cannot emphasise enough how well all of the team have worked together and how smoothly the project has been managed. I would like to congratulate all of those involved on their hard work to create what I hope will become one of Peterborough's landmark green buildings."

The building will be AB Agri's international head office, working on delivering products, technology and services to the food, drink and animal feed sectors. AB Agri is set to move into their new premises during the first three weeks of September

~ends~
